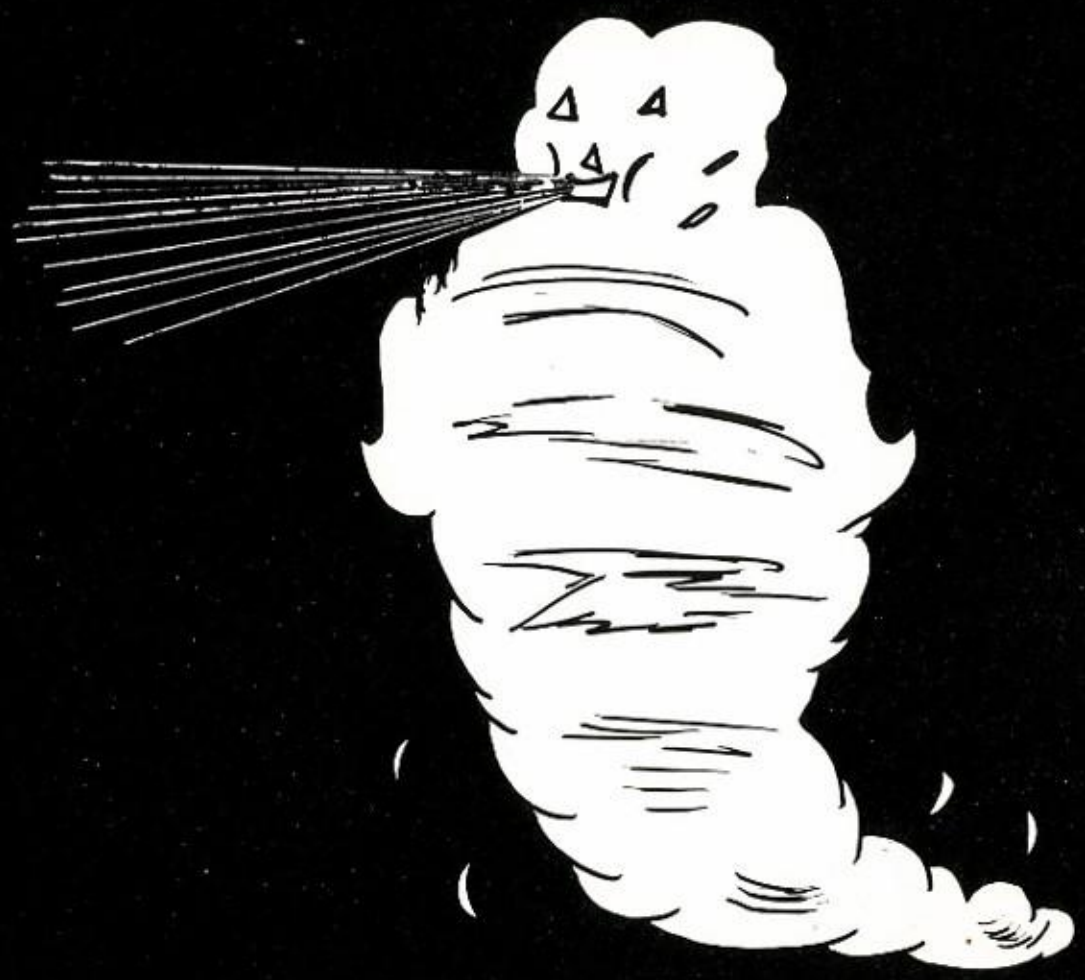
# Foreword



This year, as in years past, the GLACIER staff has endeavored to present to you, the student body, a book of memories which you can consider to be your book of memories in the years to come.

The task of writing a foreword is most difficult because in a school year there exist so many wonderful events and memories that we would like to remind the student body of each of them individually; our one aim, though, is to give to you an annual of which you can be proud--one that will motivate you to say, as you turn its pages, "These were my years."

We have attempted to record the activities, trials, tribulations, and triumphs of the past year in picture and in print.

In this way, we feel that we have accomplished our aim, and to you, the students of Winters High School, we proudly present your annual, the 1963 GLACIER.

*The Glacier Staff*

# To You

Simpson,
You've become a good manager and we appreciate the hard work you've put into it. Hope you're back with us next year

COACH BILL BRYANT

Andy,
It has been a pleasure working with you this year. The best of luck to you in the coming two years of H.S. school.
Sincerely,
Coach English

We sure do thank you for your hard work.

# We Dedicate

# The

# 1963 Glacier

Because, in dedicating the annual, the staff is dedicating all its careful planning and effort in compiling the GLACIER, we do not take this task lightly.

Even as the best quality paints, brushes, and canvasses are nothing without the touch of a great artist, a student must have help and guidance to develop his talents and transform them into something useful.

In years past, Winters has had potential for a great football team, but only this year, with the proper combination of leadership, guidance, training, and understanding, did a Blizzard team achieve greatness.

It is with sincere appreciation and gratitude that we dedicate the '62-'63 GLACIER to the Blizzard coaching staff.

**SAVINGS - - - - - SECURITY - - - - - SUCCESS**

There is a definite relationship between these three words. In countless cases, security is gained and success is attained through saving.

Saving is not doing without the things you really want. It is the surest way to get them. After you start to build a reserve fund, you will weigh values with greater care. Less money will slip away for things that do not count. Things you **most** desire will be yours — when you want them.

To be able to save is, in itself, a success — and one that will likely lead to greater achievements.

This bank can be helpful to you in many ways. To do so at any time will always be a privilege and a pleasure.

I wish You Best of everything always. Janice Bourne Ridgell
